

ATHREYA M R

athreyamr10@gmail.com | +91 8892480526 | Bengaluru, IN

SUMMARY

Result-driven **Front-end Web Developer** with **10+** years of experience in designing and developing front-end web applications. Proven track record of creating dynamic and visually appealing web applications while ensuring seamless user experiences.

SKILLS

Highly skilled in **Angular framework**, Proficient in **HTML**, **CSS**, and **JavaScript**, with a keen eye for design and a passion for creating intuitive, responsive interfaces.

- Have built high performance, micro-frontend enabled, API integrated front-end applications.
- Worked on Migration from AngularJS to Latest Angular frameworks.
- In-depth knowledge of many front-end libraries such as Bootstrap, Material etc.
- Worked on complex features such as
 - Web workers, SignalR notifications
 - Separating a micro-frontend app in an Nx monorepo into a independent application.
 - Rendering large dataset into a webpage efficiently.

WORK EXPERIENCE

JUN-2015 | Mphasis | 4 years - Started my career as a **Software Engineer**.

- Worked on JavaScript projects for 2 years. Jumped on the Angular 2 wave when it landed.
- Worked as a developer for different clients including FedEx.
- Worked on Last Mile delivery app and Heavy-Hard-to-Handle Delivery apps. Which involved Progressive Web App, IVR, Responsive and Multilingual.
- Worked on project Functionality grid, which is a dashboard application for Analysis and display of the entire scope of FedEx's Supply chain. It involved multiple graphs, tables and complex filtering.

JUN-2019 | Enate | 5 years - Worked as a **Product Engineer**, and eventually **Tech lead**.

- Worked as one of the two tech leads to manage our main product with a team of 4 front-end developers.
- Our main product involved
 - paginated tables with rendering support of 50k+ records.
 - Email functionality – an outlook-like feature.
 - Use of Web workers, SignalR for real-time notification.
 - Multilingual – Support for 9 languages.
- Our supporting product involved
 - Responsive Web application for end users.
 - Multilingual – Support for 9 languages.

AUG-2024 | Mimecast | Current (from past 1 year) - Working as **Senior Software Engineer**.

- Worked on a cyber security product in the platform team with multiple principal and senior software engineers.
- This involved maintaining a micro-frontend enabled Nx Monorepo with multiple libraries.
- Worked on creating core components to host on Storybook for others teams to use.
- Worked on migrating legacy AngularJs app to Angular 18.

ACHIEVEMENTS

MICROSOFT "INVITE-ONLY" HACKATHON EVENT – LONDON, UK.

Attended and completed an important project in an invite-only event by Microsoft, later incorporated the same project in our product.

[See more details on this LinkedIn post.](#)

APPRECIATION FROM COMPANY & CLIENTS

- Received appreciation from clients of the H3D driver app for increasing performance and loading efficiency by 50% using the implementation of lazy module loading and reducing the bundle size by 40%.
- Received "Summit Award June 2017" from Mphasis, for creating automation test bed that reduced the effort from 24 hours (8 hours x 3 resources) to One hour.
- Received "Summit Award October 2018" from Mphasis for contribution in H3D team. Received "Quarterly Apex Team Award" in Quarter-2, 2019.

EDUCATION

B.E. | 2011 - 2015 GM Institute of Technology, Davangere. Affiliated with Visvesvaraya Technological University (V.T.U.)
